

To whom it may concern,
I am writing you in regards to some disturbing issues regarding satellite radio. It is my hope that you will reject petition 04-160. As a paying customer, I feel it is only fair that XM/Sirius be allowed to provide whatever service they so choose--including offering local channels. This is what I pay for and they should not be punished for offering customers extensive options.

Thank you very much and again, please reject petition 04-160
